

Pallet Truck Scale | Best Hand Pallet Truck With Electronic

Weight Scale in Bangladesh

A pallet truck with a digital weighing scale is an industrial tool to lift and move heavy loads on pallets and weigh them directly on the go. It eliminates the need for a floor scale while simultaneously speeding up processes. A pallet jack scale is a digital scale operated with batteries that can be quickly moved from pallet to pallet to collect weights for shipping and quality assurance. If you would like some help figuring out which scale is best for your application, let us know. We would be happy to help.

Application of Hand Pallet Truck With Electronic Weight Scale

Application the most common applications for a pallet jack scale would be shipping and receiving, warehousing, industrial manufacturing, and farming.

Main Features of Hand Pallet Truck With Electronic Weight Scale

1. Color : red/ yellow/ blue/ green/ black etc, as per customer request
2. Capacity: 2000kg
3. Fork Length: 1150mm
4. Fork Width: 550mm
5. Advanced Robot welding ensures high strength, good finish, and no bubble in the welding
6. With CE certifications, waiting for your order!

Accuracy class	III
Display	6-digit 20mm LED or 25mm LCD with backlight
Work environment	-10°C ~ +40°C, ≤85%RH
Power supply	built-in DC6V/4Ah lead acid battery, or DC9V adapter

Innovation design of Hand Pallet Truck With Electronic Weight Scale

1. High reliability, suitable for a variety of environments. It can be used for 5 ~ 7 years under normal maintenance.
2. The first design of the forging & casting integral pump prevents any loosening and leakage.
3. High-strength alloy steel is carefully crafted increased loading capacity.
4. Set the active safety valve to prevent overloading of operation.
5. Maintenance-free design, ensure security and reduce the service cost.
6. With copper bush in, no need to add grease, reducing maintenance costs.
